

Setting up your iPad to your home Wi-Fi

Connecting to Home Wi-Fi,

1. Turn on Wi-Fi
 - a. Click on Settings >Wi-Fi > Toggle button to **ON**
 - b. **Choose your network.**
 - c. Connect
 - d. Cone should light up in the upper right hand corner.

Not working? Try these troubleshooting steps:

Do you see your home Wi-Fi name in the Wi-Fi Area? Do you see a lock on the Wi-Fi?

2. Turn off Wi-Fi
 - a. Click on Settings >Wi-Fi > Toggle button to Off and then back on
3. Reset Network -
 - a. Click on Settings > General > Reset > Reset Network Settings
 - b. Reconnect to Home Wi-Fi

If still not working at home:

1. Forget Network –
 - a. Click on Settings > Wi-Fi > Click on their home network > Forget this Network
 - b. Reconnect to Home Wi-Fi

If none of this works, bring this to your teacher's attention for further help.

Best Practices: Charge Every night -

Close your apps

Double click on the Home Button

When all the apps appear, swipe up towards the top of the iPad.

Turn your iPad off at least once a week. Settings>General>Shutdown

Turn off your Background App Refresh

Settings > General > Background App Refresh

Backup Work/Documents to iCloud or Office 365

Check to ensure you are NOT in Airplane Mode
